Re: EPA Identification Number: WVD 98 055 4943
Facility Name: Ohio Power Company-Mitchell Plant

Dear Mr. Heller:

This letter constitutes a formal request for Part B of your application for a hazardous waste management facility permit under the Resource Conservation and Recovery Act (RCRA) for the facility referenced above. This request is made under the authority of regulation 40 CFR §270.

Under Federal requirements, an existing interim status facility that has been requested by EPA to submit a Part B is allowed at least six months to submit the required data to EPA. EPA then has 60 days from the date of receipt of a Part B submittal in which to notify the facility whether or not the application is complete. If it is not complete, EPA issues a Notice of Deficiency advising the facility as to what must be submitted for the application to be determined complete. The facility then has 30 days in which to submit the required information; otherwise, it may be subject to an enforcement action and possible loss of interim status.

Enclosed for your reference is a list of the items which constitute Part B as applicable to your facility type. These items must be submitted by February 13, 1984. If any of this information is being submitted under a claim of confidentiality, please indicate this fact. Claims for confidentiality must be supported under the requirements of 40 CFR Part 2.

Should you have any questions about these requirements, please contact Ms. Joan Henry on 215/597-8751 or at the address shown above.

Sincerely yours,

Stephen R. Wassersug, Director
Air and Waste Management Division

Re: Acknowledgment of Application for
a Hazardous Waste Permit

This is to acknowledge that the Environmental Protection Agency has received: (1) A notification pursuant to Section 3010 of the Resource Conservation and Recovery Act for the facility located at the address shown above; and (2) Part A of a Hazardous Waste Permit Application for that facility, including a signed statement that the operation of the facility, or its construction, began prior to November 19, 1980. While the information provided by these submissions has not been fully reviewed for completeness or accuracy, EPA will accept this information as an initial qualification for interim status pursuant to Section 3005 of the Act. If after further review of this information, EPA determines that the owner or operator did not fulfill all the requirements for interim status, EPA may treat the owner or operator as not having qualified for interim status pursuant to that section and will advise the owner or operator of that determination. Facility owners and operators with interim status must comply with the standards set forth at 40 CFR Part 265 until a permit is issued. Interim status may be terminated if the owner or operator fails to furnish any additional information requested by EPA in order to process a permit application.

OF HAZARDOUS WASTE ACTIVITY
(VERIFICATION)**

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

Dear Ralph:

By letter of November 11, 1982, Ohio Power Company submitted to you its Groundwater Assessment Demonstration Report for the Mitchell Plant. In August of this year, USEPA formally requested the Part B application for the Mitchell Plant. This request came at a time when we were reevaluating this Plant's involvement in the federal hazardous waste management program.

As a result of that review, we decided to withdraw the Plant from the program. Enclosed is a copy of our withdrawal letter, dated September 21, 1983.

I am bringing this action to your attention since it renders moot USEPA's separate review of our Groundwater Demonstration. Please let me know if you have any questions.

Sincerely,

Re: Withdrawal of Part A (Protective Filing)
FACILITY NAME: Mitchell Plant
USEPA ID. NO.: WVD 98-055-4943

Dear Mr. Wassersug:

On November 11, 1980, Ohio Power Company (OPCo) submitted to USEPA Region III a Part A Hazardous Waste Permit Application for the above facility in accordance with the Resource Conservation and Recovery Act. The application was submitted as a precautionary measure to obtain interim status for that facility in the event that certain wastes generated at the plant might be determined hazardous. We recently completed a reassessment of our activities under federal and state hazardous waste management programs and have determined that we did not and do not require interim status under the federal program nor a permit under the state program.

No hazardous waste has been or will be treated, stored, or disposed of in the surface impoundment at this facility. Any hazardous waste generated has been and will be stored for less than 90 days pursuant to 40 CFR 262.34 and either disposed of offsite or beneficially reused pursuant to 40 CFR 261.6. For this reason OPCo is, by this letter, withdrawing its application for a Hazardous Waste Permit.

In light of this, your August 16, 1983 formal request for a Part B application is no longer applicable to the Mitchell Plant. If there is any other information you require, please contact R.E. Wright, (216) 456-8173, ext. 241.

Dear Ms. Bulkin:

We have received acknowledgement of notification of hazardous waste activity for the Mitchell Power Plant, Moundsville, West Virginia, operated by the Ohio Power Company, 301 Cleveland Ave., S.W., Canton, Ohio, 44702. May you be advised the installation address is incorrect and should be W.V. Route 2 10 mi. S. Moundsville, Moundsville, W. V. 26041.

Very truly yours,
